

COUNTDOWN DIARY

Photocopy this Diary for every election and use the copy as your working document each time. Put the date of the Election Day just under the coloured square and work backwards from there. The important dates to note and work to are those that will fall into these squares. 9 days before voting closes, 14 days before voting closes, 16 days before, 28 days before and 30 days before. In addition mark down 5 and 6 days after voting closes. This Diary will also be useful for you to make notes for reference in future elections including by-elections.
